

CT4041 Power Supply Accessory Kit

Features:

- Versatile 4 mm connections
- Flexible silicone test leads
- RoHS 2 and REACH compliant
- One-year warranty

Description:

The CT4041 is a power supply accessory kit designed for reliable connection of bench power supplies, electronic loads, and other laboratory equipment. The kit includes 120 cm silicone-insulated 4 mm test leads, banana plug adapters, spade lug adapters, and insulated alligator clips for connection to binding posts, terminals, and test points.

The included adapters and clips accept standard and sheathed 4 mm banana connections, providing a versatile solution for general-purpose power supply and high-current test applications.

Kit Includes:

- 2 × 120 cm silicone 4 mm test leads, black and red pair
- 2 × 4 mm banana plug-to-jack adapters, black and red pair
- 2 × 6 mm spade lug-to-4 mm jack adapters, black and red pair
- 2 × large safety alligator clips, black and red pair
- 2 × small safety alligator clips, black and red pair

RoHS 2 and REACH compliant and is backed by a one-year warranty.
