

Global Specialties®

November 29, 2018

For Immediate Release

Today Global Specialties introduces two new models to its line of accessories. These products are great for powering Global Specialties educational kits. They are built with shock and vibration resistant plastic to ensure the batteries are held securely in place. They may be utilized by soldering them directly to one of our [Educational Kits](#) or without soldering on any Global Specialties [Solderless Breadboard](#) (not included in either). All models are RoHS compliant.

New Models

Model	Features
GSK-BAT3V 3 V Battery Pack, 2 X AA 	• Clips securely hold 2 AA batteries • Provides 3 volts of electricity • Will work with Global Specialties educational kits including: GSK-060 and GSK-1110 • MSRP: \$1.80
GSK-BAT6V 6 V Battery Pack, 4 X AA 	• Clips securely hold 4 AA batteries • Provides 6 volts of electricity • Will work with Global Specialties educational kits including: GSK-109, GSK-184 and GSK-715 • MSRP: \$2.70
